ANNUAL MANAGEMENT REPORT OF FUND PERFORMANCE

DECEMBER 31

2020

The annual management report of fund performance is an analysis and explanation that is designed to complement and supplement an investment fund's financial statements. This report contains financial highlights but does not contain the complete annual financial statements of the investment fund. You can get a copy of the annual financial statements at your request, and at no cost, by calling 1-888-362-7172, by visiting our website at www.ninepoint.com or SEDAR at www.sedar.com or by writing to us at: Ninepoint Partners LP, Royal Bank Plaza, South Tower, 200 Bay Street, Suite 2700, P.O. Box 27, Toronto, Ontario M5J 2J1. Securityholders may also contact us using one of these methods to request a copy of the investment fund's proxy voting policies and procedures, proxy voting disclosure record or quarterly portfolio disclosure.

Management Discussion of Fund Performance

Investment Objective and Strategies

The investment objective of Ninepoint High Interest Savings Fund (the “Fund”) is to maximize yield on cash balances, while providing easy access to investments with daily liquidity. To achieve the Fund’s investment objectives, all of its assets are invested in high interest savings accounts at Schedule 1 Canadian Banks offering pre-negotiated interest rates.

Risk

The risks of investing in the Fund are described in the Fund’s simplified prospectus. The Fund is suitable for those investors who seek to maximize yield on cash balances, while having easy access to investments with daily liquidity. The Fund is suitable for investors with a low risk tolerance and a short-term investment horizon.

Results of Operations and Recent Developments

The Fund, Series A, returned 0.6% in 2020, while its benchmark, The Bank of Canada Treasury Bills One Month Index returned 0.9%.

At the end of the year, the Fund’s assets were held in high interest savings accounts with two Canadian Schedule 1 financial institutions: Bank of Montreal and The Toronto-Dominion Bank. Both institutions pay a gross interest rate of 0.75% on deposits as at December 31, 2020, based on the floating bank reference rate. The Fund also has the ability to allocate capital to a high interest savings account with Royal Bank of Canada.

The Manager has and will continually assess the ongoing impacts of COVID-19 on the Fund’s performance, and make investment decisions that are aligned with the Fund’s mandates as well as the best interest of its unitholders.

The Fund’s net asset value increased by 141.3% during the period, from \$145.0 million as at December 31, 2019 to \$349.9 million as at December 31, 2020. This change was primarily due to net subscriptions of \$204.9 million.

Related Party Transactions

MANAGEMENT FEES

The Fund pays a management fee to the Manager an annual rate of up to 0.39% for Series A units, up to 0.26% for Series D, up to 0.14% for Series F units and ETF Series units, and is negotiated by the unitholders for Series I and Series II. The management fee is calculated and accrued daily based on daily net asset value of the applicable series of the Fund and is paid monthly. For the year ended December 31, 2020, the Fund incurred management fees of \$385,470 (including taxes). The breakdown of the services received in consideration of the management fees, as a percentage of management fees, is as follows:

	Portfolio Advisory	Trailing Commission
Ninepoint High Interest Savings Fund – Series A	36%	64%
Ninepoint High Interest Savings Fund – Series D	100%	–
Ninepoint High Interest Savings Fund – Series F	100%	–

Out of the management fees that the Manager received from the Fund, the Manager paid trailer commissions of \$5,663 during the year ended December 31, 2020 to Sightline Wealth Management, an affiliate of the Manager.

OPERATING EXPENSES

The Fund pays its own operating expenses, which include, but are not limited to, audit, legal, custodial, trustee, filing and administrative expenses as well as unitholder reporting costs. The Manager pays certain of these expenses on behalf of the Fund and then is reimbursed by the Fund. At its sole discretion, the Manager may waive or absorb a portion of the operating expenses of certain Funds. Amounts waived or absorbed by the Manager are reported in the Statements of Comprehensive Income (Loss). Waivers or absorptions can be terminated at any time without notice. For the year ended December 31, 2020, the Manager absorbed \$255,526 of the expenses.

1 The information is provided as at December 31 for the years shown.

2 Management expense ratio (“MER”) is based on total expenses (excluding commissions and other portfolio transaction costs) for the stated period and is expressed as an annualized percentage of the daily average net asset value during the period. The Manager may waive or absorb a portion of the operating expenses of the Fund. Waivers and absorption can be terminated at any time.

3 The trading expense ratio (“TER”) represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average net asset value during the period. The TER includes dividend expense and securities borrowing expense paid by the Fund in connection with securities sold short.

4 The Fund’s portfolio turnover rate indicates how actively the Fund’s portfolio adviser trades its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year. The higher the Fund’s portfolio turnover rate in a year, the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of the Fund. The portfolio turnover is expressed as a non-annualized percentage.

Past Performance

The indicated rates of return are the historical total returns including changes in unit values and assume reinvestment of all distributions in additional units of the relevant Series of the Fund. These returns do not take into account sales, redemption, distribution or optional charges or income taxes payable by any unitholder that may reduce returns. Please note that past performance is not indicative of future performance. All rates of return are calculated based on the Net Asset Value of the particular Series of the Fund.

Year-by-Year Returns

The following chart indicates the performance of each Series of the Fund for the years ended December 31 shown, unless otherwise indicated. The chart shows, in percentage terms, how much an investment made on the first day of each period would have grown or decreased by the last day of each period. Returns are not shown for a Series in any period in which there were zero outstanding shares as at the end of the period.

Annual Compound Returns

The following table illustrates the annual compound total return for each Series of units of the Fund for the periods shown. As a basis of performance comparison, the annual compound return of the Fund is compared to that of the Bank of Canada Treasury Bills One Month Index. The Index reflects the performance of a portfolio that owns a single (rolling bi-weekly) Government of Canada Treasury Bill with a one-month term to maturity. Since the Fund does not necessarily invest in the same securities or in the same proportion as the index, the performance of the Fund is not expected to equal the performance of the index.
