<b>Total Percentage of top 10 investments</b>		<b>52.2%</b>
<b>Total number of investments</b>		<b>34</b>

#### Investment Mix (March 31, 2018)

#### HOW RISKY IS IT?

The value of the Fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund’s returns change over time. This is called “volatility.”

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

#### RISK RATING

Ninepoint Partners LP has rated the volatility of this Fund as **low to medium**.

This rating is based on how much the Fund’s returns have changed from year to year. It doesn’t tell you how volatile the Fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the Fund’s returns, see “What Are the Risks of Investing in the Fund?” section of the Fund’s simplified prospectus.

#### NO GUARANTEES

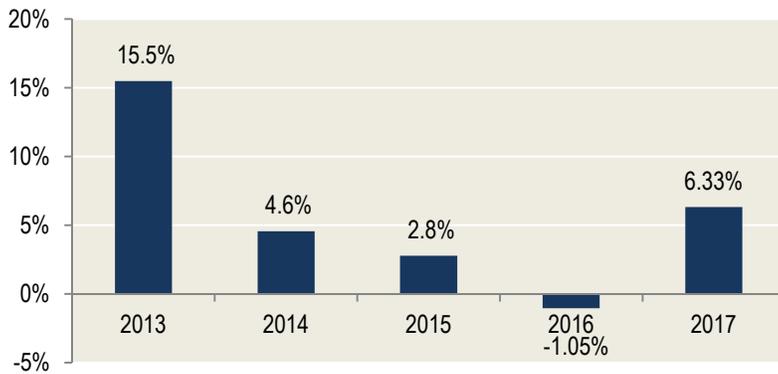

Like most mutual funds, this Fund does not have any guarantees. You may not get back the amount of money you invest.

## HOW HAS THE FUND PERFORMED?

This section tells you how Series A shares of the Fund have performed in the past 5 calendar years. Returns are after fund expenses have been deducted. These expenses reduce the Fund's returns.

### Year-by-year returns

This chart shows how Series A shares of the Fund performed in the past 5 calendar years. The Fund dropped in value in 1 of the 5 calendar years. The range of returns and change from year to year can help you assess how risky the Fund has been in the past. It does not tell you how the Fund will perform in the future.

### Best and worst 3-month returns

This table shows the best and worst returns for Series A shares of the Fund in a 3-month period over the past 5 calendar years to March 31, 2018. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
<b>Best return</b>	7.05%	January 31, 2015	Your investment would rise to \$1070.51.
<b>Worst return</b>	-7.86%	February 29, 2016	Your investment would drop to \$921.38.

### Average return

As at March 31, 2018, a person who invested \$1,000 in Series A shares of the Fund on its inception would now have \$1291.69. This works out to an annual compound return of 4.40%.

## WHO IS THIS FUND FOR?

The Fund is suitable for those investors seeking long-term capital growth and a core Canadian equity fund that seeks to provide some downside protection through the use of option strategies and tactical changes to the amount of equity exposure. Investors should be comfortable with low to medium investment risk and a long-term investment horizon.

- Don't buy this Fund if you need a steady source of income from your investments.

## A WORD ABOUT TAX

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live, the type of earnings (i.e., income or capital gains), and whether or not you hold the Fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your Fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

**HOW MUCH DOES IT COST?**

The following tables show the fees and expenses you could pay to buy, own and sell Series A shares of the Fund. The fees and expenses – including any commissions – can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

**1. Sales Charges**

You have to choose a sales charge option when you buy Series A shares of the Fund. Ask your representative about the pros and cons of each option available.

Sales charge option	What you pay		How it works
	in percent (%)	in dollars (\$)	
<b>Initial sales charge</b>	0% to 5.0% of the amount you purchase	\$0 to \$50 for each \$1,000 investment	You and your representative negotiate on the rate.  The initial sales charge is deducted from the gross amount at the time of purchase. It goes to your representative’s firm as a sales commission.
<b>Low load</b>	<b>If you redeem:</b> % First Year: 3.00 Second Year: 2.75 Third Year: 2.50 Thereafter: 0.00	\$0 to \$30 for each \$1,000 investment	Investors pay no fees at the time of purchase but the Manager pays a fee of 2.50% to the representative’s firm. This sales commission is based on the value of shares of the Fund purchased.  The deferred sales charge is a set rate based on the original purchase price. It is deducted from the amount you redeem within three years of purchase.  If you wish to switch all or part of your investment in Series A shares of the Fund that were purchased under Low Load Option to a series of shares of this Fund or another Ninepoint mutual fund that is not available under the Low Load Option, you will be charged a deferred sales charge at the time of such switch, based on the date you first bought the Fund.

**2. Fund Expenses**

You don’t pay these expenses directly. They affect you because they reduce the Fund’s returns.

As of December 31, 2017, the Fund’s expenses were 2.51% of its value. This equals \$25.10 for every \$1,000 invested.

**Annual Rate (as a % of the Fund’s value)**

<b>Management expense ratio (MER)</b> This is the total of the Fund’s management fee (including the trailing commission), incentive fee and operating expenses.	2.46%
<b>Trading expense ratio (TER)</b> These are the Fund’s trading costs.	0.05%
<b>Fund expenses</b>	2.51%

**Incentive Fee**

The Fund pays us annually an incentive fee equal to 10% of the amount by which the return of the series exceeds the return of the blended benchmark index, multiplied by the net asset value of the series. The blended benchmark index return is 50% - S&P 500 Total Return Index in Canadian dollar terms and 50% - S&P/TSX Composite Total Return Index. If the performance of the series in any year is less than the performance of the blended benchmark index (the “Deficiency”), then no incentive fee will be payable in any subsequent year until the performance of the series, on a cumulative basis, has exceeded the amount of the Deficiency.

**More about the trailing commission**

The trailing commission is an ongoing commission. It is paid for as long as you own the Fund. It is for the services and/or advice that your representative and his or her firm provide to you.

Ninepoint Partners LP pays the trailing commission to your representative’s firm. It is paid from the Fund’s management fee and is based on the value of your investment. The rate is as follows:

Sales charge option	Amount of trailing commission	
	in percent (%)	in dollars (\$)
<b>Initial sales charge</b>	0% to 1.00% of the value of your investment each year	\$0 to \$10 each year on every \$1,000 invested
<b>Low load</b>	0% to 0.75% of the value of your investment held by you for more than one year and less than three years	\$0 to \$7.50 each year on every \$1,000 invested
	0% to 1.00% of the value of your investment held by you for more than three years	\$0 to \$10 each year on every \$1,000 invested

**3. Other Fees**

You may have to pay other fees when you buy, hold, sell or switch shares of the Fund.

FEE	WHAT YOU PAY
<b>Switch Fee / Conversion Fee</b>	A fee of 0-2.0% of the value of the shares you wish to switch or convert may be charged by your representative's firm, as negotiated with your representative. If you switch or reclassify/convert Series A shares of the Fund that were purchased under the Low Load Option to a series of shares of this Fund or another Ninepoint mutual fund that is not available under the Low Load Option, you will be charged a deferred sales charge at the time of such switch or conversion.
<b>Short-Term Trading Fee</b>	Ninepoint Partners LP may impose a short-term trading fee payable by the shareholder to the Fund of up to 1.5% of the aggregate net asset value of the shares redeemed if such shares are redeemed within 20 days of their date of purchase or switch. For purposes of this short-term trading fee, shares will be considered to be redeemed on a first-in, first-out basis. If Ninepoint Partners LP detects excessive trading of the shareholder's shares in the Fund within 90 days of purchasing or switching them, it reserves the right to charge an additional 3.0% of the net asset value of the shares.

**WHAT IF I CHANGE MY MIND?**

Under securities law in some provinces and territories, you have the right to

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, annual information form, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities legislation in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

**FOR MORE INFORMATION**
