HOW RISKY IS IT?

The value of the Fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund’s returns change over time. This is called “volatility.”

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

RISK RATING

Ninepoint Partners LP has rated the volatility of this Fund as **high**.

This rating is based on how much the Fund’s returns have changed from year to year. It doesn’t tell you how volatile the Fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the Fund’s returns, see “What Are the Risks of Investing in the Fund?” section of the Fund’s simplified prospectus.

A WORD ABOUT TAX

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live, the type of earnings (ie, income or capital gains), and whether or not you hold the Fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your Fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

HOW MUCH DOES IT COST?

The following tables show the fees and expenses you could pay to buy, own and sell Series A shares of the Fund. The fees and expenses – including any commissions – can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales Charges

You have to choose a sales charge option when you buy Series A shares of the Fund. Ask your representative about the pros and cons of each option available.

If you wish to switch all or part of your investment in Series A shares of the Fund that were purchased under the Low Load Option to a series of shares that is not available under the Low Load Option, you will be charged a deferred sales charge at the time of such switch, based on the date you first bought the Fund.

Incentive Fee

The Fund pays Ninepoint Partners LP annually an incentive fee equal to 10% of the amount by which the return of the series exceeds the return of the MSCI ACWI Select Silver Miners IMI Net Return Index, multiplied by the net asset value of the series. If the performance of the series in any year is less than the performance of the index (the "Deficiency"), then no incentive fee will be payable in any subsequent year until the performance of the series, on a cumulative basis, has exceeded the amount of the Deficiency.
