This Fund is an alternative mutual fund. It has the ability to invest in asset classes or use investment strategies that are not permitted for conventional mutual funds. The specific strategies that differentiate the Fund from conventional mutual funds include the increased use of derivatives for hedging and non-hedging purposes; increased ability to sell securities short; and the ability to borrow cash for investment purposes. These strategies will be used in accordance with the Fund’s investment objective and strategy however, during certain market conditions they may accelerate the risk of loss or a decrease in the value of your investment.

The Fund will be merged into a substantially similar mutual fund structured as a trust on or about December 10, 2021. The Independent Review Committee has approved the merger and investors of the Fund as of October 1, 2021 have been provided with notice of the merger.

**HOW RISKY IS IT?**

The value of the Fund can go down as well as up. You could lose money. One way to gauge risk is to look at how much a fund’s returns change over time. This is called “volatility.” In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

**RISK RATING**

Ninepoint Partners LP has rated the volatility of this Fund as **medium**. This rating is based on how much the Fund’s returns have changed from year to year. It doesn’t tell you how volatile the Fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the Fund’s returns, see “What Are the Risks of Investing in the Fund?” section of the Fund’s simplified prospectus.

**NO GUARANTEES**

Like most mutual funds, this Fund does not have any guarantees. You may not get back the amount of money you invest.

**HOW HAS THE FUND PERFORMED?**

This section tells you how Series F shares of the Fund have performed in the past 5 calendar years. Returns are after fund expenses have been deducted. These expenses reduce the Fund’s returns.
