Annual Management Report of Fund Performance	3
Audited Annual Financial Statements	9

The annual management report of fund performance is an analysis and explanation that is designed to complement and supplement an investment fund's financial statements. This report contains financial highlights but does not contain the complete annual financial statements of the investment fund. A copy of the interim financial statements has been included separately within the Report to Securityholders. You can also get a copy of the annual financial statements at your request, and at no cost, by calling 1-888-362-7172, by visiting our website at [www.ninepoint.com](http://www.ninepoint.com) or SEDAR at [www.sedar.com](http://www.sedar.com) or by writing to us at: Ninepoint Partners LP, Royal Bank Plaza, South Tower, 200 Bay Street, Suite 2700, P.O. Box 27, Toronto, Ontario M5J 2J1. Securityholders may also contact us using one of these methods to request a copy of the investment fund's proxy voting policies and procedures, proxy voting disclosure record or quarterly portfolio disclosure.

## Management Report of Fund Performance

### Investment Objective and Strategies

Ninepoint 2020 Short Duration Flow-Through Limited Partnership (the “Partnership”) is a non-redeemable investment fund. The Partnership’s investment objective is to achieve capital appreciation and significant tax benefits for Limited Partners by investing in a diversified portfolio of Flow-Through Shares and other securities, if any, of Resource Issuers.

The Partnership’s investment strategy is to invest in flow-through shares and other securities, if any, of Resource Issuers whose principal business is: (i) mining exploration, development, and/or production, (ii) oil and gas exploration, development, and/or production or (iii) certain energy production that may incur Canadian renewable and conservation expenses. To accomplish this strategy, a strong preference is given to companies with existing production, which Ninepoint Partners LP (the “Manager”) believes should mitigate downside risk relative to investing in earlier stage companies.

Sprott Asset Management LP is the sub-advisor of the Fund.

### Risks

The risks of investing in the Partnership are detailed in the prospectus dated September 14, 2020. There have been no material changes to the Partnership since inception that affected the overall level of risk. There were no significant changes to the investment objective and strategies that affected the Partnership’s overall level of risk during the reporting period.

### Results of Operations and Recent Developments

The Partnership was launched in September 2020 and Series A returned -2.7% during the period ended December 31, 2020, finishing the period with a Net Asset Value per unit of \$24.33.

The spread of COVID-19 caused a dramatic contraction in gross domestic product as economic activity slowed. In response, governments substantially increased fiscal and monetary stimulus. Oil prices fell as a result of reduced demand, while the price of gold bullion rose.

The Partnership’s overweight allocation to gold equities contributed to performance as the commodity price increased.

In terms of individual securities, Orefinders Resources Inc. and Baselo Energy Corp. were the top contributors to the Partnership’s performance. Orefinders stock rerated as the area in which the company explores garnered increased attention from investors. Baselo Energy’s stock price benefited from renewed interest in uranium exploration equities.

The Partnership’s overweight exposure to small-capitalization equities detracted from performance because of negative investor sentiment towards small-caps.

The top individual detractors from performance were Libero Copper & Gold Corp. and Golden Predator Mining Corp. Libero underperformed in response to poor drilling results. Golden Predator detracted primarily because of the premiums paid for the flow-through shares.

The Partnership had a total net asset value of \$24.5 million as at December 31, 2020, largely due to net proceeds from the issuance of partnership units of \$23.2 million and net realized and unrealized gains on investments of \$1.5 million.

### *Loan Facility*

The Partnership has entered into a loan facility (the “Loan Facility”) with a Canadian chartered bank to fund the agents’ fees, offering expenses and ongoing expenses of the Partnership, including management fees. The Partnership may borrow a principal amount of up to 10% of the gross proceeds of any individual offering. The Partnership’s obligation under the Loan Facility is secured by a pledge of the assets held by the Partnership. Prior to the earlier of: (a) the dissolution of the Partnership, (b) the date on which a Liquidity Alternative, as defined in the Partnership’s prospectus, is completed, and (c) the maturity date of the Loan Facility all amounts outstanding under the Loan Facility, including all interest accrued thereon, will be repaid in full. Interest is calculated based on the bank’s Prime rate. Certain covenants exist that, if breached, would require the immediate payment of accrued interest and the aggregate principal outstanding. As at December 31, 2020, the Partnership was in compliance with all covenants.

As at December 31, 2020, the loan outstanding consists of a prime rate loan with a principal amount (including interest payable) of \$2,286,431. The minimum and maximum amounts borrowed for the period from September 21, 2020 to December 31, 2020 were \$1,282,865 and \$2,282,865, respectively. Interest expense, including standby fees and bank charges, for the period from September 21, 2020 to December 31, 2020 was \$11,734.

## Related Party Transactions

### MANAGEMENT FEES

The Partnership pays the Manager an annual management fee equal to 2% of the Net Asset Value, calculated and paid monthly in arrears. For the period from September 21, 2020 to December 31, 2020, the Partnership incurred management fees (including taxes) of \$139,331. Of the management fees incurred by the Partnership, 100% is attributed to portfolio advisory services.

### OPERATING EXPENSES

The Partnership is responsible for all expenses (inclusive of applicable taxes) incurred in connection with its operation and administration. These include, but are not limited to, legal, audit, transfer agent, custodian and administration services and cost of financial reporting and printing. The Partnership may use the Loan Facility to fund these expenses.

### OTHER RELATED PARTY TRANSACTIONS

The Partnership relied on the approval, positive recommendation or standing instruction from the Partnership's Independent Review Committee with respect to any related party transactions.

## Financial Highlights

The following tables show selected key financial information about the Partnership and are intended to help you understand the Partnership's financial performance for the period since inception to December 31, 2020.

The Partnership's Net Assets per unit<sup>1</sup>

	<b>Dec 31, 2020<sup>4</sup></b>

## Ratios and Supplemental Data

	<b>Dec 31, 2020</b>
Series A	
Total net asset value (000's) <sup>1</sup>	<b>\$19,895</b>
Number of Units outstanding <sup>1</sup>	<b>817,560</b>
Management expense ratio <sup>2</sup>	<b>3.21%</b>
Trading expense ratio <sup>3</sup>	–
Portfolio turnover rate <sup>4</sup>	–
Net asset value per Unit <sup>1</sup>	<b>\$24.33</b>

	<b>Dec 31, 2020</b>
Series F	
Total net asset value (000's) <sup>1</sup>	<b>\$4,608</b>
Number of Units outstanding <sup>1</sup>	<b>182,440</b>
Management expense ratio <sup>2</sup>	<b>3.21%</b>
Trading expense ratio <sup>3</sup>	–
Portfolio turnover rate <sup>4</sup>	–
Net asset value per Unit <sup>1</sup>	<b>\$25.26</b>

1 This information is provided as at December 31, 2020.

2 Management expense ratio ("MER") is based on total expenses (excluding commissions and other portfolio transaction costs) for the stated period and is expressed as an annualized percentage of the daily average net asset value during the period. The Manager may waive or absorb a portion of the operating expenses of the Fund. Waivers and absorption can be terminated at any time.

3 The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average net asset value during the period.

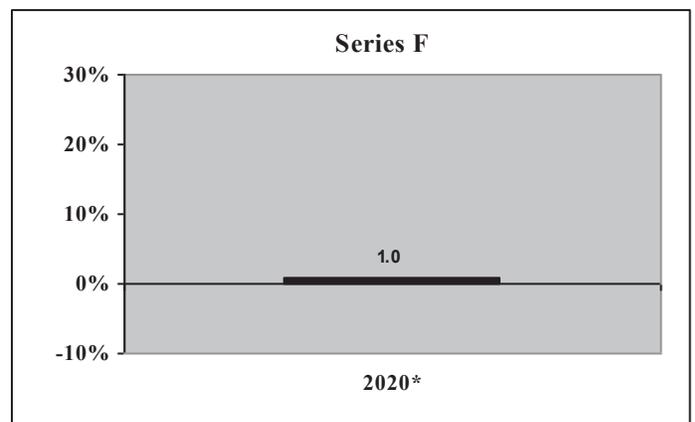

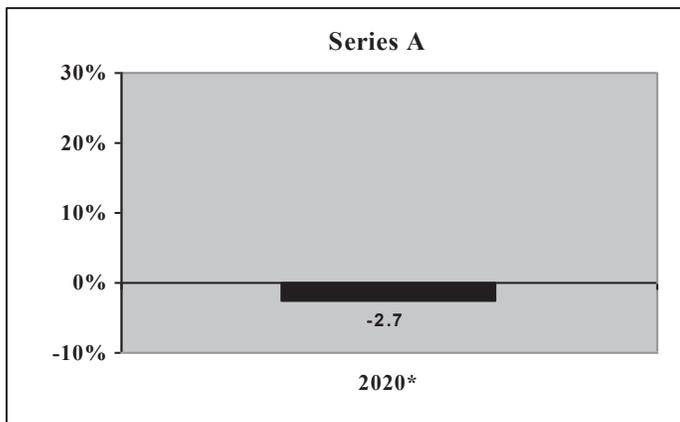

4 The Partnership's portfolio turnover rate indicates how actively the Partnership's portfolio adviser trades its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Partnership buying and selling all of the securities in its portfolio once in the course of the year. The higher the portfolio turnover rate in a year, the greater the trading costs payable by the Partnership in the year, and the greater the chance of an investor receiving taxable capital gains in the period. There is not necessarily a relationship between a high turnover rate and the performance of the Partnership.

## Past Performance

The indicated rates of return are the historical total returns including changes in unit values and assume reinvestment of all distributions in additional units of the Partnership. These returns do not take into account sales, redemption, distribution or optional charges or income taxes payable by any unitholder that may reduce returns. Please note that past performance is not indicative of future performance. All rates of return are calculated based on the Net Asset Value of the Partnership.

### Year-by-Year Returns

The following charts indicates the performance of each Series of the Partnership for the period since inception to December 31, 2020. The charts show, in percentage terms, how much an investment made on the first day of the period would have grown or decreased by the last day of the period.

\* Return from September 21, 2020 (launch date) to December 31, 2020 (not annualized).

## INDEPENDENT AUDITORS' REPORT

To the Partners of Ninepoint 2020 Short Duration Flow-Through Limited Partnership

### ***Opinion***

We have audited the financial statements of Ninepoint 2020 Short Duration Flow-Through Limited Partnership (the "Partnership"), which comprise:

- the statement of financial position as at December 31, 2020
- the statement of comprehensive income (loss) for the period from September 21, 2020 to December 31, 2020
- the statements of changes in net assets attributable to partners for the period from September 21, 2020 to December 31, 2020
- the statements of cash flows for the period from September 21, 2020 to December 31, 2020
- and notes to the financial statements, including a summary of significant accounting policies

(Hereinafter referred to as the "financial statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Partnership as at December 31, 2020, and its financial performance and its cash flows for the period from September 21, 2020 to December 31, 2020 in accordance with International Financial Reporting Standards (IFRS).

### ***Basis for Opinion***

We conducted our audit in accordance with Canadian generally accepted auditing standards. Our responsibilities under those standards are further described in the "***Auditors' Responsibilities for the Audit of the Financial Statements***" section of our auditors' report.

We are independent of the Partnership in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada and we have fulfilled our other responsibilities in accordance with these requirements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion

### ***Other Information***

Management is responsible for the other information. Other information comprises:

- the information included in the Management Report of Fund Performance filed with the relevant Canadian Securities Commissions.

Our opinion on the financial statements does not cover the other information and we do not and will not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit and remain alert for indications that the other information appears to be materially misstated.

We obtained the information included in Management Report of Fund Performance filed with the relevant Canadian Securities Commissions as at the date of this auditors' report. If, based on the work we have performed on this other information, we conclude that there is a material misstatement of this other information, we are required to report that fact in the auditors' report.

We have nothing to report in this regard.

### ***Responsibilities of Management and Those Charged with Governance for the Financial Statements***

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IFRS, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Partnership's ability to continue as a going concern, disclosing as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Partnership or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Partnership's financial reporting process.

### ***Auditors' Responsibilities for the Audit of the Financial Statements***

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian generally accepted auditing standards will always detect a material misstatement when it exists.

Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the financial statements.

As part of an audit in accordance with Canadian generally accepted auditing standards, we exercise professional judgment and maintain professional skepticism throughout the audit.

We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion.

The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Partnership's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Partnership's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Partnership to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

- Provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

# Ninepoint 2020 Short Duration Flow-Through Limited Partnership

## Notes to financial statements – Partnership specific information December 31, 2020

### Financial Risk Management *(note 6)*

#### Investment Objective

The Partnership's investment objective is to achieve capital appreciation and significant tax benefits for Limited Partners by investing in a diversified portfolio of Flow-Through Shares and other securities, if any, of Resource Issuers whose principal business will be: (i) mining exploration, development, and/or production, (ii) certain energy production that may incur Canadian renewable and conservation expense or, to a lesser extent, (iii) oil and gas exploration, development, and/or production.

The Schedule of Investment Portfolio presents the securities held by the Partnership as at December 31, 2020. Significant risks that are relevant to the Partnership are discussed here. General information on risks and risk management is described in *Note 6 Financial Risk Management* of the Generic Notes.

#### Market Risk

##### a) Other Price Risk

The Partnership's most significant exposure to market price risk arises from its investment in equity securities. As at December 31, 2020, had the prices on the respective stock exchanges for these securities increased or decreased by 10%, with all other variables held constant, Net Assets attributable to Partners would have increased or decreased by the amount shown in the below table.

<b>December 31, 2020</b>	
<b>Impact</b>	<b>As a % of Net Assets attributable to Partners</b>
\$	%
2,643,257	10.79

##### b) Currency Risk

As at December 31, 2020, the Partnership did not have a significant exposure to currency risk.

##### c) Interest Rate Risk

As at December 31, 2020, the Partnership did not have a material exposure to interest rate risk from its investments. Assuming the same debt level as at December 31, 2020, a 0.5% change in interest rates would result in an increase or decrease of approximately \$11,432 to Net Assets attributable to holders of Partnership units on an annual basis.

#### Credit Risk

As at December 31, 2020, the Partnership did not have a significant exposure to credit risk.

#### Concentration Risk

As at December 31, 2020, the Partnership's concentration risk as a percentage of Net Assets attributable to holders of Partnership units is shown in the table below.

	<b>December 31, 2020</b>
	%
Equities:	
Materials	86.21
Energy	10.43
Warrants	11.23
Cash and other assets less liabilities	(7.87)
<b>Total Net Assets attributable to holders of Partnership units</b>	<b>100.00</b>

# Ninepoint 2020 Short Duration Flow-Through Limited Partnership

## Notes to financial statements – Partnership specific information December 31, 2020

### Fair Value Measurements (note 5)

As at December 31, 2020, the Partnership's financial assets and liabilities which are measured at fair value, have been categorized based upon the fair value hierarchy as shown in the table below.

December 31, 2020	Level 1	Level 2	Level 3	Total
	\$	\$	\$	\$
Equities	195,000	23,485,461	–	23,680,461
Warrants	–	329,495	2,422,611	2,752,106
<b>Total</b>	<b>195,000</b>	<b>23,814,956</b>	<b>2,422,611</b>	<b>26,432,567</b>

During the period from September 21, 2020 to December 31, 2020, there were no significant transfers between levels.

For the period ended December 31, 2020, the reconciliation of investments measured at fair value using unobservable inputs (Level 3) is shown in the table below.

	December 31, 2020
	Warrants
	\$
Balance, beginning of period	–
Purchases	–
Transfer in (out)	–
Sales	–
Realized gains (losses)	–
Changed in unrealized appreciation (depreciation) in the value of investments	2,422,611
<b>Balance, end of period</b>	<b>2,422,611</b>
Change in unrealized appreciation (depreciation) during the period for investments held at end of period	2,422,611

The Fund's Level 3 securities consist of private warrants. The Manager determines their fair value by utilizing a variety of valuation techniques such as the use of comparable recent transactions, discounted cash flows and other techniques used by market participants. As at December 31, 2020, these positions were significant to the Fund and the significant unobservable input used in these valuation techniques can vary considerably over time depending on company specific factors and economic or market conditions. The potential impacts of applying reasonable possible alternative assumptions for valuing material Level 3 financial assets or liabilities are shown in the table below.

December 31, 2020	Increase	Decrease
Impact on Net assets attributable to holders of redeemable units	0.50%	(0.52%)

### Loan Facility (note 7)

As at December 31, 2020, the loan outstanding consists of a prime rate loan with a principal amount (including interest payable) of \$2,286,431. The minimum and maximum amounts borrowed for the period from September 21, 2020 to December 31, 2020 were \$1,282,865 and \$2,282,865, respectively. Interest expense, including standby fees and bank charges, for the period from September 21, 2020 to December 31, 2020 was \$11,734.

*See accompanying notes which are an integral part of these financial statements*

# Generic Notes to Financial Statements December 31, 2020

---

## 1. Formation of the Partnership

Ninepoint 2020 Short Duration Flow-Through Limited Partnership (the “Partnership”) was formed as a limited partnership under the laws of the Province of Ontario. Ninepoint 2020 Short Duration Flow-Through Limited Partnership was formed on September 14, 2020. The Manager has retained Sprott Asset Management LP as the sub-advisor of the Partnership. The address of the Partnership’s registered office is 200 Bay Street, Toronto, Ontario.

On September 21, 2020, the Partnership completed its first and final closing of its initial public offering of 1,000,000 units at \$25 per unit for gross proceeds of \$25,000,000. It is a multi-series Partnership that has been authorized to issue two classes of units: Class A and Class F. The differences among the classes of units are the different eligibility criteria and fee structures associated with each class.

The Partnership has retained Ninepoint Partners LP (the “Manager”) to provide investment, management, administrative and other services. The general partner of Ninepoint 2020 Flow-Through Limited Partnership is Ninepoint 2019 Corporation (“General Partner”).

The Partnership intends to implement a Mutual Fund Rollover Transaction prior to February 28, 2022, unless the Limited Partners approve a Liquidity Alternative, as defined in the Partnership’s prospectus, at a special meeting held for such purpose. If the Mutual Fund Rollover Transaction is implemented, then pursuant to the Transfer Agreement, the assets of the Partnership will be transferred to the Mutual Fund Corporation, in exchange for Mutual Fund Shares on a tax-deferred basis, provided appropriate elections are made. In connection with the Mutual Fund Rollover Transaction, the Partnership will be dissolved, and the Limited Partners will receive their pro-rata portion of redeemable Mutual Fund Shares.

The Statement of Financial Position of the Partnership is as at December 31, 2020. The Statement of Comprehensive Income (Loss), Statement of Changes in Net Assets Attributable to Partners and Statement of Cash Flows for the Partnership are for the period from September 21, 2020 to December 31, 2020. The Schedule of Investment Portfolio for the Partnership is as at December 31, 2020.

These financial statements were approved for issuance by the Manager on March 26, 2021.

## 2. Basis of Presentation

These financial statements have been prepared in compliance with International Financial Reporting Standards (“IFRS”) as published by the International Accounting Standards Board (“IASB”) and include estimates and assumptions made by the Manager that may affect the reported amounts of assets, liabilities, income, expenses and the reported amounts of changes in Net Assets during the reporting period. Actual results could differ from those estimates.

The financial statements have been prepared on a going concern basis using the historical cost convention. However, the Partnership is an investment entity and primarily all financial assets and financial liabilities are measured at fair value in accordance with IFRS.

The financial statements are presented in Canadian dollars, which is the Partnership’s functional currency.

## 3. Summary of Significant Accounting Policies

The following is a summary of significant accounting policies followed by the Partnership:

### CLASSIFICATION AND MEASUREMENT OF INVESTMENTS

The Partnership classifies and measures financial instruments in accordance with IFRS 9, *Financial Instruments* (“IFRS 9”). Based on the Partnership’s business model for managing the financial assets and the contractual cash flow characteristics of these assets, it requires financial assets to be classified as amortized cost, fair value through profit or loss (“FVTPL”), or fair value through other comprehensive income (“FVOCI”).

The Partnership’s investments, investments sold short and derivative assets and liabilities are classified as FVTPL and measured at fair value, with changes in fair value recorded in the Statement of Comprehensive Income (Loss).

The Partnership’s accounting policies for measuring the fair value of its investments and derivatives are identical to those used in measuring its Net Asset Value (“NAV”) for transactions with partners. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

# Generic Notes to Financial Statements December 31, 2020

---

Financial assets and liabilities at FVTPL are recorded in the Statements of Financial Position at fair value upon initial recognition. All transaction costs such as brokerage commissions incurred in the purchase and sale of such securities are recognized directly in the Statements of Comprehensive Income (Loss). Subsequent to initial measurement, these investments are recorded at fair value which, as at the financial reporting period end is determined as follows:

1. Securities listed upon a recognized public stock exchange are valued at the closing price recorded by the exchange on which the security is principally traded, where the last traded price falls within that day's bid-ask spread. In circumstances where the closing price is not within the bid-ask spread, the Manager determines the point within the bid-ask spread that is most representative of fair value based on the specific facts and circumstances.
2. Common shares of unlisted companies and warrants that are not traded on an exchange are valued using valuation techniques established by the Manager. Restricted securities are valued in a manner that the Manager determines represents fair value.
3. Bonds, debentures and other debt obligations are valued at the mean of bid/ask prices provided by recognized investment dealers. Unlisted bonds are valued using valuation techniques established by the Manager.

The difference between the fair value of investments and the cost of investments represents the unrealized appreciation or depreciation in the value of investments. The cost of investments for each security is determined on an average cost basis.

All other financial assets and financial liabilities are classified at amortized cost. They are recognized at fair value upon initial recognition and subsequently measured at amortized cost. IFRS 9 requires that an entity recognize a loss allowance for expected credit losses on financial assets which are at amortized cost or FVOCI. The Partnership considers both historical analysis and forward-looking information in determining any expected credit loss. The Partnership's obligation for Net Assets attributable to partners is presented at the redemption amount.

#### INVESTMENT TRANSACTIONS AND INCOME RECOGNITION

Investment transactions are accounted for on the business day following the date the order to buy or sell is executed. Realized gains and losses arising from the sale of investments and unrealized appreciation and depreciation on investments are calculated with reference to the average cost of the related investments.

Interest income for distribution purposes represents the coupon interest recognized on an accrual basis. Dividend income is recognized on the ex-dividend date.

#### CASH

Cash is comprised of cash on deposit with financial institutions.

#### CALCULATION OF NET ASSETS ATTRIBUTABLE TO PARTNERS PER UNIT

Net assets attributable to Partners per unit is calculated on each valuation date by dividing the net assets representing Partners' capital of the Partnership by the total number of units outstanding on that date.

#### INCREASE (DECREASE) IN NET ASSETS ATTRIBUTABLE TO PARTNERS FROM OPERATIONS PER UNIT

"Increase (decrease) in Net Assets attributable to Partners from operations per unit" in the Statement of Comprehensive Income (Loss) represents the increase (decrease) in Net Assets attributable to Partners from operations, divided by the weighted average number of units outstanding during the period, which is presented in the Statement of Comprehensive Income (Loss).

#### TRANSACTION COSTS

Transaction costs are expensed and are included in "Transaction costs" in the Statements of Comprehensive Income (Loss). Transaction costs are incremental costs that are directly attributable to the acquisition, issue or disposal of an investment, which include fees and commissions paid to agents, advisors, brokers and dealers, levies by regulatory agencies and securities exchanges, and transfer taxes and duties.

#### AGENTS' FEE AND ISSUE EXPENSES

Agents' fees and issue expenses related to the offering of the units are recognized as a reduction of Partners' capital.

#### INCOME TAXES

The Partnership itself is not liable for income tax. As a result, no provision for income taxes has been recorded by the Partnership. Each Limited Partner will generally be required to include, in computing their income or loss for tax purposes for a taxation year, their share of the income or loss for tax purposes (including taxable capital gains or allowable capital losses) allocated by the Partnership to such Limited Partner for each fiscal year of the Partnership.

# Generic Notes to Financial Statements December 31, 2020

---

## STANDARDS ISSUED BUT NOT YET EFFECTIVE

The Partnership has determined there are no IFRS standards that are issued but not yet effective that could materially impact the Partnership's financial statements.

## 4. Critical Accounting Estimates and Judgments

The preparation of financial statements requires management to use judgment in applying its accounting policies and to make estimates and assumptions about the future. The following discusses the most significant accounting judgments and estimates that the Partnership has made in preparing the financial statements:

### FAIR VALUE MEASUREMENT OF SECURITIES NOT QUOTED IN AN ACTIVE MARKET

The Partnership holds financial instruments that are not quoted in active markets. Fair values of such instruments are determined using valuation techniques and may be determined using reputable pricing sources (such as pricing agencies) or indicative prices from market makers. Where no market data is available, the Partnership may value investments using valuation models, which are usually based on methods and techniques generally recognized as standard within the industry. The models used to determine fair values are validated and periodically reviewed by experienced personnel of the Manager, independent of the party that created them. Models use observable data, to the extent practicable. However, areas such as credit risk (both own and counterparty), volatilities and correlations require the Manager to make estimates. Changes in assumptions about these factors could affect the reported fair values of financial instruments. The Partnership considers observable data to be market data that is readily available, regularly distributed and updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market. Refer to Note 5 for further information about the fair value measurement of the Partnership's financial instruments.

### CLASSIFICATION AND MEASUREMENT OF INVESTMENTS AND APPLICATION OF THE FAIR VALUE

In classifying and measuring financial instruments held by the Partnership, the Manager is required to make significant judgments in determining the most appropriate classification in accordance with IFRS 9. The Manager has assessed the Partnership's business models and concluded that FVTPL, in accordance with IFRS 9, provides the most appropriate classification of the Partnership's financial instruments.

## 5. Fair Value Measurements

The Partnership uses a three-tier hierarchy as a framework for disclosing fair value based on inputs used to value the Partnership's investments. The fair value hierarchy has the following levels:

- Level 1 Unadjusted quoted prices in active markets for identical, unrestricted assets or liabilities that the Partnership has the ability to access at the measurement date;
- Level 2 Quoted prices which are not active, or inputs that are observable (either directly or indirectly) for substantially the full term of the asset or liability; and
- Level 3 Prices, inputs or complex modeling techniques that are both significant to the fair value measurement and unobservable (supported by little or no market activity).

The hierarchy of investments and derivatives for the Partnership is included in the Notes to Financial Statements – Partnership Specific Information of the Partnership.

All fair value measurements above are recurring. The carrying values of cash, subscriptions receivable, interest receivable, payable for investments purchased, redemptions payable, distributions payable and accrued expenses approximate their fair values due to their short-term nature. Fair values are classified as Level 1 when the related security or derivative is actively traded and a quoted price is available. If an instrument classified as Level 1 subsequently ceases to be actively traded, it is transferred out of Level 1. In such cases, instruments are reclassified into Level 2, unless the measurement of its fair value requires the use of significant unobservable inputs, in which case it is classified as Level 3.

The following provides details of the categorization in the fair value hierarchy by asset classes:

Level 1 securities include:

- Equity securities using quoted market prices (unadjusted).

Level 2 securities include:

- Equity securities that are not frequently traded in active markets. In such cases, fair value is determined based on observable market data (e.g., transactions for similar securities of the same issuer).

# Generic Notes to Financial Statements December 31, 2020

---

Level 3 securities include:

- Investments valued using valuation techniques that are based on unobservable market data. These techniques are determined pursuant to procedures established by the Manager. Quantitative information about unobservable inputs and related sensitivity of the fair value measurement are disclosed in the Notes to financial statements – Partnership specific information.

Additional disclosures relating to transfers between levels and a reconciliation of the beginning and ending balances in Level 3 are also disclosed in the Notes to financial statements – Partnership specific information.

For the period from September 21, 2020 to December 31, 2020, the majority of Level 2 securities consisted of common shares acquired pursuant to a private placement and subject to a hold period following the closing date of the purchase, and warrants received in consideration of the private placement purchase. Upon the expiry of the hold period on the common shares, the shares become freely traded and, as such, would be moved from Level 2 to Level 1. The warrants would be Level 2 until either the warrant expires at which time the security would be removed from the Level 2 balance, or the warrant was exercised, at which time the warrant would be converted into a Level 1 common share. There were no other material transfers between Level 1 and Level 2 during the period.

## 6. Financial Risk Management

The Partnership is exposed to risks that are associated with their investment strategies, financial instruments and markets in which they invest. The extent of risk within the Partnership is largely contingent upon its investment policy and guidelines as stated in the Partnership's prospectus, and the management of such risks is contingent upon the qualification and diligence of the portfolio manager designated to manage the Partnership. The Schedule of Investment Portfolio presents the securities held by the Partnership as at December 31, 2020, and groups the securities by asset type and market segment. Significant risks that are relevant to the Partnership is discussed below. Refer to the Notes to Financial Statements – Partnership Specific Information of the Partnership for specific risk disclosures.

### MARKET RISK

The Partnership's investments are subject to market risk which is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market variables such as equity prices, currency rates and interest rates.

#### a) Other Price Risk

Other price risk is the risk that the fair value of a financial instrument will fluctuate due to changes in market prices (other than those arising from interest rate risk or currency risk). The investments of the Partnership are subject to normal market fluctuations and the risks inherent in the financial markets. The maximum risk resulting from purchased securities held by the Partnership is limited to the fair value of these investments. The Manager moderates this risk through a careful selection of securities within specified limits, as well as through the diversification of the investment portfolio.

#### b) Currency Risk

Currency risk is the risk that arises from the change in price of one currency against another. The Partnership may hold securities that are denominated in currencies other than the Canadian dollar. These securities are converted to the Partnership's functional currency (Canadian dollar) in determining fair value, and fair values are subject to fluctuations relative to the strengthening or weakening of the functional currency.

#### c) Interest Rate Risk

Interest rate risk is the risk borne by an interest-bearing financial instrument that is attributed to interest rate fluctuations. The majority of the Partnership's investments are non-interest bearing. Cash and short-term investments do not expose the Partnership to significant amounts of interest rate risk. As a result, the Partnership is not subject to a significant amount of risk related to fluctuations in prevailing market interest rate levels. The loan facility bears interest at prime, therefore, an increase in interest rates would impact the amount of interest paid under the loan facility.

### CREDIT RISK

Credit risk is the risk of loss due to the failure of a counterparty to satisfy its obligations. All transactions executed by the Partnership in listed securities are settled upon delivery using approved brokers. The risk of default is considered minimal, as the delivery of those securities sold is made only when the broker has received payment. Payment is made on purchases only when the security is received by the broker. The trade will fail to consummate if either party fails to meet its obligations.

# Generic Notes to Financial Statements December 31, 2020

---

## LIQUIDITY RISK

Liquidity risk is the risk that the Partnership will not be able to generate sufficient cash resources to fulfill payment obligations. The Partnership invests in liquid securities that are readily tradable in an active market or maintain sufficient cash to fund expenses in the normal course of operations. The Partnership may, from time to time, invest in illiquid or restricted securities such as private placements, private companies and warrants as identified in the Schedules of Investment Portfolio. In addition, units are not redeemable by the Limited Partners.

With the exception of loans payable, all of the Partnership's financial liabilities are short-term liabilities maturing within 90 days after the period end. Any loan payable held by the Partnership matures on the date the Partnership is wound up pursuant to the Mutual Fund Rollover transaction.

## CONCENTRATION RISK

Concentration risk arises as a result of the concentration of financial instrument exposures within the same category, whether it is geographic region, asset type or industry sector.

## 7. Loan Facility

The Partnership has entered into a loan facility (the "Loan Facility") with a Canadian chartered bank to fund the agents' fees, offering expenses and ongoing expenses of the Partnership, including management fees. The Partnership may borrow a principal amount of up to 10% of the gross proceeds of any individual offering. The Partnership's obligation under the Loan Facility is secured by a pledge of the assets held by the Partnership. Prior to the earlier of: (a) the dissolution of the Partnership; (b) the date on which a Liquidity Alternative is completed; and (c) the maturity date of the Loan Facility, all amounts outstanding under the Loan Facility, including all interest accrued thereon, will be repaid in full. Interest is calculated based on the bank's Prime rate. Certain covenants exist that, if breached or not waived, would require the immediate payment of accrued interest and the aggregate principal outstanding. These covenants require that: (a) the outstanding principal of the loan facility not exceed the least of (i) \$2.5M for the Partnership; (ii) 10% of the gross proceeds from the sale of partnership's units for the Partnership; and (iii) the offering expenses incurred in connection with the initial or any subsequent offering; (b) the Partnership maintains a ratio of total assets to indebtedness of 3:1; and (c) the Partnership maintains a minimum ratio of total cash and liquid assets to indebtedness of 4:1. As at December 31, 2020, the Partnership was not in breach of the covenants or they have been waived.

## 8. Allocation to the Partners

On the last day of each fiscal year, 99.99% of the net income or loss of the Partnership will be allocated pro-rata among the Limited Partners who are holders of units and 0.01% of the net income or loss will be allocated to the General Partner.

The General Partner will be entitled to a distribution of the Partnership's property on the Performance Bonus Allocation Date (as defined in the Partnership's prospectus) (the "Performance Bonus Allocation") in an amount equal to the number of units outstanding at the Performance Bonus Allocation Date multiplied by 20% of the amount by which the NAV per unit on the Performance Bonus Allocation Date (excluding the effects of distributions, if any) (i) of any Class A units exceeds \$26.50 or (ii) of any Class F units exceeds \$27.48.

The Performance Bonus Allocation will be calculated on the Performance Bonus Allocation Date and paid as soon as practicable thereafter. The Performance Bonus Allocation will be paid in cash before the transfer of the assets of the Partnership to the Designated Mutual Fund pursuant to the Mutual Fund Rollover Transaction or if the assets of the Partnership are not transferred to the Designated Mutual Fund, before the dissolution of the Partnership.

## 9. Partners' Capital and Capital Management

The Partnership is authorized to issue an unlimited number of units. Each unit subjects the holder thereof to the same obligations and entitles such holder to the same rights as the holder of any other unit, including the right to one vote at all meetings of the Limited Partners and to equal participation in any distribution made by the Partnership. The Partnership is a limited life fund and the Partnership interest represents a contractual obligation to deliver cash or another financial instrument. Therefore, Partnership units are classified as financial liabilities.

Units are not redeemable by the Limited Partners.

## CAPITAL MANAGEMENT

The Partnership's capital represents the net assets of the Partnership and is comprised of issued units net of agents' fees and issue expenses, and retained earnings (deficit). The Manager utilizes the partners' capital in accordance with the Partnership's investment objectives, strategies and restrictions, as outlined in the Partnership's prospectus. The Partnership does not have any externally imposed capital requirements.

## 10. Restricted Cash and Investments

Cash, investments and broker margin include balances with prime brokers held as collateral for securities sold short and other derivatives. This collateral is not available for general use by the Partnership. The value of any restricted cash and investments held for the Partnership is disclosed in the Notes to financial statements – Partnership specific information, if applicable.

## 11. Related-Party Transactions

### MANAGEMENT FEES

In consideration for the Manager's services and pursuant to the terms of the Management Agreement, the Partnership pays the Manager an annual management fee equal to 2% of their NAV, calculated and paid monthly in arrears.

### ALLOCATION TO PARTNERS

The General Partner will be entitled to a distribution of the Partnership's property if certain performance criteria are met. Refer to Note 8.

## 12. Operating Expenses of the Partnership

The Partnership is responsible for all expenses (inclusive of applicable taxes) incurred in connection with their operation and administration. These expenses include, but are not limited to, audit, legal, safekeeping, custodial, fund administration expenses, preparation costs of financial statements and other reports to investors and Independent Review Committee ("IRC") member fees and expenses. The Partnership may use the Loan Facility to fund these expenses.

## 13. Sharing Arrangements

In addition to paying for the cost of brokerage services in respect of securities transactions, commissions paid to certain brokers may also cover research services provided to the portfolio manager. Sharing arrangements for the Partnership is disclosed in the Notes to financial statements – Partnership specific information, if applicable.

## 14. Independent Review Committee ("IRC")

In accordance with National Instrument 81-107, Independent Review Committee for Investment Funds ("NI 81-107"), the Manager has established an IRC for the Partnership. The mandate of the IRC is to consider and provide recommendations to the Manager on conflicts of interest to which the Manager is subject when managing the Partnership and other funds. Each fund or partnership subject to IRC oversight pays its pro rata share of the IRC member fees, costs and other fees in connection with operation of the IRC. The IRC reports annually to the Limited Partners as required by NI 81-107.

## 15. Economic Conditions

In January 2020, the World Health Organization declared the outbreak of a novel form of coronavirus ("COVID-19") a global health emergency and in March 2020, declared it a global pandemic. This has presented many uncertainties as reflected in the subsequent stock market volatility.

Equity markets have reacted with the biggest decline experienced in more than a decade. In response, both the U.S. Federal Reserve and the Bank of Canada quickly reduced their key interest rates. Additionally, governments and businesses around the world introduced significant new measures to contain and control the spread of COVID-19. As COVID-19 continues to spread, its impacts on global growth and businesses remains unclear and will not be fully understood until more time has passed.

The ultimate extent of COVID-19's effects on the Partnership remains uncertain. As a result, the Manager has and will continually assess the performance of the portfolios and make investment decisions that are aligned with the Partnership's respective mandates and the best interest of its unitholders.
