FUND OBJECTIVE

The investment objective of Ninepoint Global Macro Fund (Formerly FX Strategy Fund) is to generate long term total returns by investing globally in FX futures on a long/short basis. To achieve the investment objective, the Sub-Advisor will utilize several investment trading methodologies collectively known as the "FX Strategy", at the standard level of risk to invest in foreign currency futures utilizing a Bayesian statistical model to identify current drivers of currency returns. The Fund may also have exposure to gold through investment in future contracts.

WHY INVEST IN THIS FUND?

- **Trade on Global Trends** – A highly liquid way to take advantage of global macroeconomic and financial trends.
- **True Diversifier** – Historically, similar strategies have exhibited a low correlation to other major assets classes.
- **Liquid Alternative Structure** – Combines the diversification effect of Alternative investing with the freedom of daily liquidity.
- **Systematic** – Statistical, model-based approach that combines new and historical data to predict future currency movements.
- **Adaptive** – Actual returns are compared to forecast returns at the end of each trading day to determine, for the next day, the appropriate weight of each factor used in the model.
